

INSTALLATION INSTRUCTIONS FOR PAPER LINES

Equipment Required:

- | | | |
|---------------------|-----------------------------|-----------------|
| 1. Circle Marker | 4. Paint Roller with handle | 7. Watering can |
| 2. 300 ft. string | 5. Cordless Drill | |
| 3. Backpack Sprayer | 6. 150 Tape measure | |

Straight Lines (Goal line, blue and red lines):

1. For all lines, use a string and tack to the ice to maintain all lines will be straight.
2. Roll out the coloured line along the string line and tack down to keep line from moving. Remove string line.
3. Saturate the line using hot water in the backpack sprayer and pressing in the line with the roller.
4. Using a watering can, pour cold water to seal in the line.

Creases, Dots and Circles:

5. Find the centre of rink by measuring along the goal line. Using the string line from end to end, put in your centre dot on the big red line and drill a hole for future use.
6. Drill two holes, one at each end to put in your creases. Using the circle marker, apply the red/blue creases following with the roller and using steps 3 and 4.
7. Follow the same steps for the face-off circle. At this time it would be good to paint the blue in the creases or lay cloth goal creases.
8. Measure along the goal lines from centre and run a string line from end to end. Measure and place all dots using steps 3 and 4. Drill holes for circles in the middle of the face-off dot. Repeat this step for the other side.
9. Using circle marker, do all the 30 ft. circles following steps 6, 3 and 4.
10. All you have left to do is the hash lines; face-off 1's and ringette lines (if applicable). To maintain that all these lines stay straight, please use the string line and follow the same steps mentioned earlier.

NOTE: Failure to follow these instructions will result in air pockets and faded lines.
Do not wet any rolls before applying to ice. Rolls should be dry when applying.

Properly maintained lines will look good for the whole season.

Kit contains material for 4 applications: 1 roll of 12" Red, 2 rolls of 12" Blue, 7 rolls of 2" Red, 1 roll of 2" Blue, 32 of 24" Red Face-off Dots, 4 of 12" Blue Face-off Dots and 1 Instruction sheet.
